A Saint-Gobain brand

# WHAT IS CAR DETAILING?

Auto detailing is an activity that keeps the vehicle in its best possible condition, especially cosmetic, as opposed to mechanical. This is achieved by removing both visible and invisible contaminants from the vehicle's interior as well as polishing the exterior to its original blemish-free finish.

In short, detailing is about getting the absolute best look for your paintwork and other surfaces

## FARÉCLA

Farécla Products Ltd is a manufacturer of polishing compounds and surface finishing products.

From polishing compounds and applicators to polishing products and microfibre cloths, Farécla has provided surface finishing solutions to automotive bodyshops, detailers, and other industrial applications since 1952, now in over 120 countries.

Farécla joined Saint-Gobain in 2018.

# Farécla

It is essential to have a clean surface before grinding. Contaminants can cause surface defects such as scratches, dulling or odours if they are not removed before the restoration and finishing stages. Cleaning with G3 Pro products facilitates the safe removal of these contaminants. This process allows you to move on to restoring the newly cleaned surface.

### Cleaning

- 9201136089 G3 Pro Rapid Detailer
- 9201136093 G3 Pro Deep Clean Clay Mitt
- 9201136088 G3 Pro Multicleaner
- 9201136092 G3 Pro Wheel Cleaner

After cleaning the surface, all the defects from faded paint to marks and scratches will be more visible. G3 Pro products use Engineered Abrasive Technology (E.A.T) to permanently remove these defects, leaving a smooth, shiny surface. This process produces a perfect, flawless zone, ready to be protected and highlighted.

### Restoring

- 9201136094 G3 Pro Scratch Remover Liquid
- 9201136083 G3 Pro Colour Restorer
- 9201136095 G3 Pro All In One Polish
- 9201136082 G3 Pro Applicator Waffle Pads

This process preserves the work you have done in the vehicle cleaning and restoration stages. Interior surfaces will look and smell like new again. The bodywork, wheels and engine compartments will receive a brilliant, water-repellent finish. All surfaces will benefit from a high level of protection and will be much easier to clean next time.

### Finishing

- 9201136084 G3 Pro Super Dressing
- 9201136097 G3 Pro Spray Wax
- 9201136086 G3 Pro Glass Cleaner

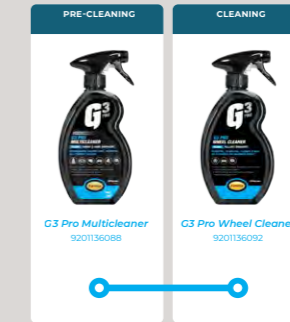

### Deep interior cleaning

### Interior finishing, gloss and protection

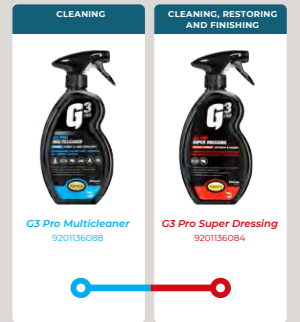

### Wheel and tyre maintenance

This process can be carried out before or after exterior bodywork cleaning. This removes the coating product if it comes into contact with the bodywork. However, dirt from the bodywork will slide onto the wheels.

### Motor cleaning and treatment

This process is applied before the exterior bodywork is rectified.

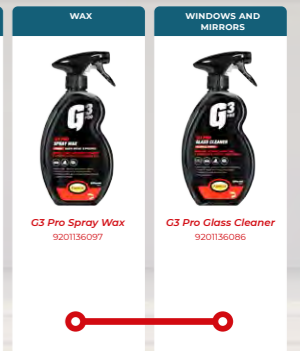

### Cleaning the exterior bodywork

### Restoring exterior bodywork

### Finishing, protection and shine of the bodywork

G3 Pro from Farécla brings years of expertise in paint rectification solutions to a range of interior and exterior detailing, cleaning, paint correction and finishing products developed for care care enthusiasts and detailers alike,

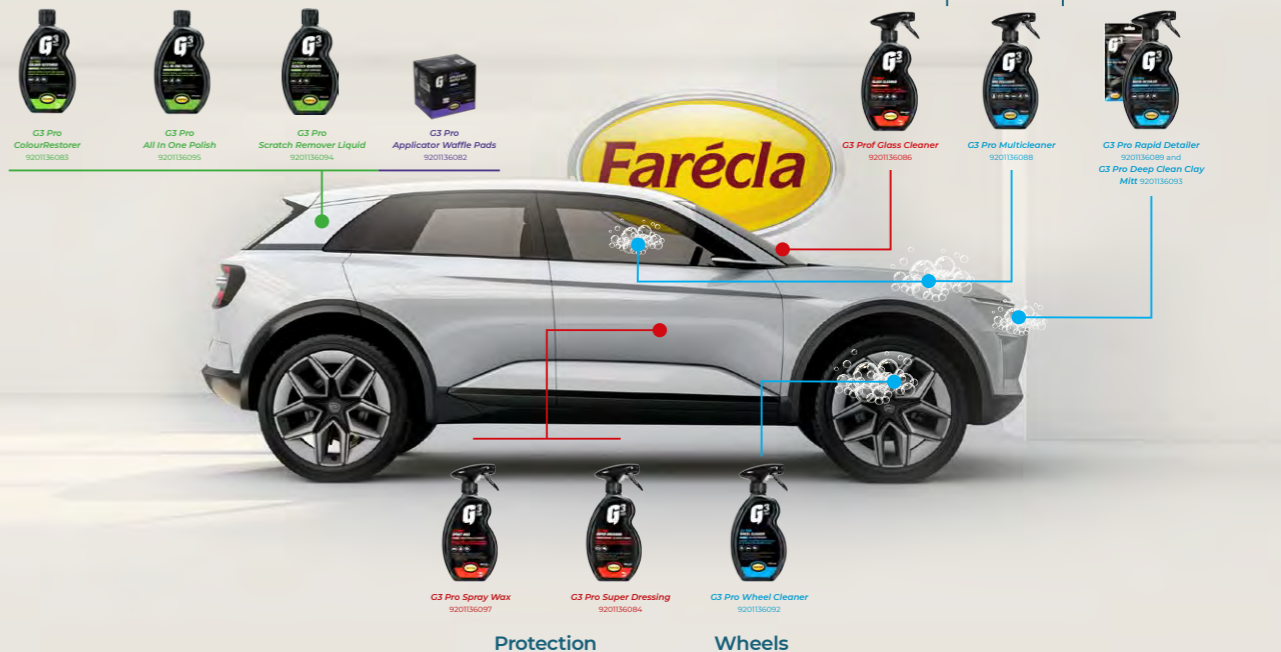

The G3 Pro range is designed to clean, restore and finish surfaces such as automotive paintwork amongst others.

- CLEAN** the surface in the safest way to prevent surface damage.
- RESTORE** the surface after cleaning to enhance the surface condition.
- FINISH** by sealing the restored surface, protecting and enhancing the shine.

### Paint restoration (after decontamination)

### Protection | Pre-wash | Decontamination
